

## ENGINEERING MEETS DESIGN.

Roschmann Glass was founded in 1952. Basic glass in all variations is being processed to insulating glass since then. The special knowledge of glass manufacturing led into the foundation of the new commercial branch for manufacturing of steel constructions combined with insulated glass.

Roschmann Steel & Glass construction has started to manufacture steel and glass constructions - mainly facades and roofs - in 1987 and employs about 200 people within the group today.

We are looking for experienced
